

# Lender-Mediated Report

A RESEARCH TOOL PROVIDED BY THE **NORTHEAST FLORIDA ASSOCIATION OF REALTORS®**

## Historical Inventory of Lender-Mediated Properties

## November 2013

We've now had 21 months of rising year-over-year prices in the past 22 months. Less lender-mediated activity and strong demand have driven the price gains. Traditional new listings rose 29.9 percent but that metric increased only 11.6 percent for lender-mediated homes. Traditional closed sales rose 7.2 percent while sales fell 14.5 percent for lender-mediated properties.

The percentage of all new listings that were lender-mediated fell to 39.7 percent and the percentage of all closed sales that were lender-mediated fell to 36.4 percent. Both figures showed solid percentage declines from last year at this time. The percentage of active listings that were lender-mediated fell to 30.3 percent. Since the traditional median home price is just over twice that of lender-mediated listings, and traditional homes make up a larger share of the pie, overall prices have gotten a real boost. Even so, activity can still vary dramatically by segment and location.

### Explanation of Methodology

Lender-mediated properties are those tagged in the Northeast Florida Multiple Listing Service as a Foreclosure, Short Sale and/or REO. Foreclosures are those noted in the "Title" field as "Foreclosure". Short Sales are those noted the "Title" field as "Short Sale/3rd Party" and "Pre-Foreclosure". REOs are those noted in the "Property Owner" field as "REO", "HUD Owned" and "VA Owned".
