Historical Inventory of Lender-Mediated Properties

January 2014

The year 2013 brought nothing short of seismic changes to the market's landscape. 2014 should bring further declines in the number of lender-mediated listings and sales as economic recovery continues and household finances stabilize. That should also help the trend of rising home prices to continue.

From January 2013 to January 2014, traditional new listings rose 18.0 percent while lender-mediated new listings fell 3.1 percent. And although traditional closed sales were only up 1.4 percent while lender-mediated closings were up 7.1 percent for this reporting period, generally, the market has shifted back towards a traditional-dominated marketplace.

Overall, traditional listings sold for over twice the price of lender-mediated properties. But lender-mediated homes sold in 79 days versus traditional homes selling in 91 days, on average. As always, every house and neighborhood is unique.

Explanation of Methodology

Lender-mediated properties are those tagged in the Northeast Florida Multiple Listing Service as a Foreclosure, Short Sale and/or REO. Foreclosures are those noted in the "Title" field as "Foreclosure". Short Sales are those noted the "Title" field as "Short Sale/3rd Party" and "Pre-Foreclosure". REOs are those noted in the "Property Owner" field as "REO", "HUD Owned" and "VA Owned".
